

Financing Options Are Available  
**You Have A Choice Of Loans And Leasing**

### **Unique Financing with a Capitol Lease**

Postal Connections has created an option for you to lease your store instead of self financing or using a loan. When you qualify, you are able to lease the store for five years with a \$1 buy out at the end.

### **You do not need to "put up" your home**

This unique plan is made possible through arrangements with vendors and a business credit source using the tangible assets in your store as the basis for the lease. The IRS recognizes this type of lease as a capitol lease. It is secured with a personal guarantee, as opposed to personal assets such as your home. The lease fully funds the turn-key installation of your store in as little as 9 business days. The option requires approximately \$48,000 in cash to fund the entire initial investment.

### **SBA Financing**

Postal Connections has arranged for a trusted and experienced SBA loan broker to pre-qualify you with SBA Lenders prior to signing our franchise agreement. Our process is intended to give you the comfort of knowing you can qualify for financing your Postal Connections store.

### **Barrow up to 70% of the initial investment**

SBA Loans are backed by the US Government's Small Business Administration and usually have low interest rates. They are typically a five year note, secured by personal assets. When you qualify, you will be able to borrow 70% of the initial investment. This typically means you need

approximately \$40,000 in cash plus the SBA financing to set up your store.

**Postal Connections has no financial interest in any of the funding options we introduce to you. Our only interest is to assist you with financing our business opportunity.**
